FTP Tutorial using Filezilla

Okland Construction no longer supports the use of Internet Explorer for use with its FTP site. Please download Filezilla and install. The following pages will give you a quick tutorial on how to "download" and/or "upload" to the FTP site.

Check with your network administrator before this program is installed to your PC to verify it complies with your company policy. <u>Install this program at your own risk</u>. Okland takes no responsibility in the effects this program may cause to your system. This document is provided as an alternative method to downloading files from any FTP site. It is a standard FTP client originally downloaded from:

http://sourceforge.net/project/showfiles.php?group_id=21558

In your browser enter: ftp://support:pc@ftp.okland.com/filezilla.exe

Save this file and install this application

File Download - Security Warning								
Do you want to run or save this file?								
Name: filezilla.exe Type: Application, 3.37MB From: ftp.okland.com <u>R</u> un <u>S</u> ave Cancel								
While files from the Internet can be useful, this file type can potentially harm your computer. If you do not trust the source, do not run or save this software. What's the risk?								

Ask your network administrator to install or help you install this program if needed

You should have a new icon. If not check under your programs menu in Windows

Step 3. Click "Quickconnect"

Step 1. Enter the name of the site you want to connect. (i.e. ftp.okland.com)

		FileZilla - Connected to ftp.okland.com	
	Step 2. If you have a user name and password, enter this information here: If not leave it blank. The default "anonymous" account will be used.	Eile Edit Transfer View Queue Server Help
